

Can we flush out wastewater nutrient loading on Long Island? An Update on Article 19 of the Suffolk County Sanitary Code on Innovative and Alternative Onsite Wastewater Treatment Systems (I/A OWTS)

You are invited to our Twentieth Annual Dinner, where our speakers will discuss the latest on Suffolk County's new Article 19 – Management of I/A OWTS passed early 2017.

Our speakers will provide answers to frequently asked questions, touch on which systems are currently approved, other potentially-approvable systems, the approvals process, engineering, systems management, and inherent costs of new systems. Please plan to join your fellow design professionals for a memorable evening of learning and networking.
