PROGRAM:

NFPA 30 and 30A

2 PDHs

Enforceable under OSHA and many state and local regulations, NFPA 30: Flammable and Combustible Liquids Code is the best practice widely used in industry and by insurers. The code includes the latest and most complete criteria you need to protect your facility by ensuring safe storage, handling, and use of flammable and combustible liquids. This presentation includes an overview of the code, including the following topics:

- The basics of Flammable and Combustible Liquids—Properties and Classification
- The basics of NFPA 30—Navigating the Code
- Procedures and Safe Practices for Flammable and Combustible Liquids
- Container and Tank Storage
- NFPA 30A

Presented by: Susan Bershada, NFPA

Susan is a Senior Chemical Engineer in the Industrial and Chemical Engineering Division at the National Fire Protection Association (NFPA). She holds a BS and MS in Chemical Engineering from Northeastern University and is a registered Professional Engineer in Massachusetts.
